- DoD Global Emerging Infections Surveillance and Response System

Current Question Before the Board

Mefloquine Study Options: Consider and recommend the most scientifically valid approaches to two study questions:

- What are the comparison rates of adverse events (including neuropsychiatric) among deployed service members using mefloquine, versus doxycycline, or no antimalarial medication?
- What are the attributable risk factors (including mefloquine) for suicide among deployed and recently redeployed service members?

Discussion/Recommendations

- Remembrance of Deceased Members
 - Memorial scholarship fund in Dr. Shope's honor
 - "AFEB Greats" Web Page
 - Eulogies for Dr. Shope, Dr. Benenson
 - Criteria
 - AFEB Permanent Display
 - Uniformed Services Health Sciences University
 - Design suggestions

Armed Forces Epidemiological Board (AFEB)

The Armed Forces Epidemiological Board (AFEB) serves as a continuing scientific advisory body to the Assistant Secretary of Defense for Health Affairs and the military Surgeons General.

The AFEB provides timely scientific and professional advice concerning operational programs, policy development, and research needs for the prevention of disease and injury and the promotion of health.

The AFEB under the [Executive Agency](#) of the Army is [chartered](#) by the Administrative Assistant to the Secretary of Army. The Board is a continuing scientific advisory committee under Public Law 92-463, the Federal Advisory Committee Act, Department of Defense Directive 5105.3, the "DoD Federal Advisory Committee Management Program," and other implementing directives governing Federal Advisory Committees.
